

Diesel Forklift Trucks

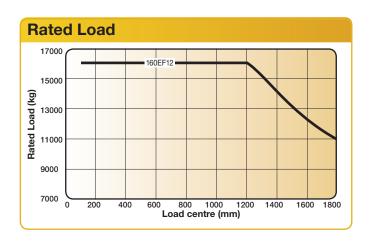

- 16t capacity truck with load centre of 1200mm
- Load Sensing Hydraulics, with highly efficient 'variable displacement' pumps
- Nominal lifting capacities including side shift carriage -Full capacity up to 6200mm lift height
- Transmissions, with smooth auto-shift system, also featuring protective lock-out on forward-reverse shifting and engine and transmission protection systems as standard
- Fast lifting speeds, with a practical average of up to 0.40m/sec
- Excellent ergonomics.

Masts and carriages

Yale's 2 stage masts with pin and hook type carriages on provides:

- Excellent visibility for the driver to the forks and load
- · Optimised forward visibility
- Extended range of carriage options
- Easier manoeuvrability through reduced mast height and truck width
- · Excellent durability and reliability

Standard fork positioning pin type carriage.

Apron-style sideshift and fork positioner pin type carriage.

Apron-style sideshift and fork positioning pin type carriage for 3-stage mast only.

Dual function sideshift fork positioning carriage.

Standard equipment

- Cummins QSB 6.7 119kW / max. 122kW @ 2300rpm
 - Turbo Diesel Engine
 - Stage IV Compliant
 - ECO-eLo / HiP performance modes
 - Hibernate Idle
 - Hydraulically driven cooling fan
- ZFWG161 3 speed Hydrodynamic Transmission
- 2-Stage NFL Mast with maximum fork height of 5400mm
- Dual Function Sideshift/Fork Positioning
- Wet Disc Brakes
- SAUER-DANFOSS dual piston pump 90ccm (45 + 45ccm)
- Kessler D81 Drive Axle
- Up to 6-way hydraulic controls with Levers and Switches combination
- Mast Tilt: 6° Forward / 10° Back
- Yale Operator Compartment with Integral Overhead Guard Featuring:
 - Seat-Side Hydraulic Control
 - Multifunction Display Panel
 - Interior Wide Angle Mirrors
 - Telescoping & Tilting Steering Column
 - Floor Mat
 - Isolated Mounting for Low Noise and Vibration
 - Handrails for Operator Entry and Exit
 - Front screen wiper (single blade), top and rear wipers
- Tyres Drive and Steer 12.00 R20 pneumatic
- Steering Wheel with Spinner Knob
- Electronic Horn
- Amber strobe light Ignition key
- Mechanical, Full Suspension Vinyl or Cloth Seat with integrated adjustable armrest and seat belt
- Air Intake Cleaner with Rain Cap
- Low mount Exhaust
- 24V Electrical System
- 120 Amp Alternator
- Manual Tilt Operator Compartment for Service Access
- Light Kit 6:
 - 4 Halogen Work Lights on Front Mast
 - 2 Rear Halogen Work Lights
 - 2 Headlights on Front Fender with Side, Stop, Tail, Indicator & Reverse Lights
- Direction and position LED light with hazard function
- Non-Locking Fuel Cap
- Literature Package
 - Operator's Manual
- Warranty
 - 24 Months / 4000 Hours Manufacturer's Warranty

Optional equipment

- Masts
 - 2-Stage NFL Masts with maximum fork heights from 5400mm to 6700mm
 - 3-Stage FFL Masts with maximum fork heights from 4400mm to 7000mm
- Carriages
 - 2400mm Pin Type Carriage with Simultaneous and Independent Fork Positioner
 - 2400mm Pin Type Carriage with Simultaneous and Independent Fork Positioner
 - 2400mm Pin Type Side Shift Frame carriage
 - 2400mm Pin Type Integral Sideshift with Simultaneous Fork Positioner
 - 2400mm Pin Type Integral Sideshift with Simultaneous and Independant Fork Positioner
 - 2400mm QD Hook Type Dual Function Sideshift with Simultaneous and Independant Fork Positioner
 - 2400mm QD Hook Type Dual Function Sideshift with Simultaneous Fork Positioner with 2 Auxiliary Functions
- 5 Function Hydraulic Control Valve with 3 Levers, 2 Switches
- 6 Function Hydraulic Control Valve with 4 Levers, 2 Switches
- Hydraulic Control 5 function Joystick
- Mast Tilt:
 - 20.5° Forward / 7° Back
 - 5° Forward / 12° Back
- FDC pedal
- Tyres Drive and Steer
 - 10.00-20 Trelleborg radial tyres
 - 10.00-R20 Michelin XZM radial tyres
 - 10.00-20 pneumatic shaped solid tyres
- Steer Wheel Nut Protection
- Yale enclosed cab with or without Air Conditioning includes:
 - Mini-levers hydraulic control
 - 7" integrated performance display
 - Interior Wide Angle Mirrors
 - Telescoping & Tilting Steering Column
 - H-style front screen wiper
 - Floor Mat
 - 24-12V DC/DC Converter
 - Heater
 - Re-circulation Fan
- Enclosed Cab options
 - -Top and rear sun shades
 - Temperature controller
 - Air conditioner, manual controlled
 - Air conditioner, automatically controlled
 - Reading light

- Trainer seat
- IT console for on-board computer
- Storage console
- Heated top window
- Engine start interlock
- Radio preparation, inclusive wire, two speakers and antenna
- Rain top (OHG only)
- Wire mesh protection guard on Top of cab
- External Mirror right and left
- Soate
 - Mechanical, Full Suspension High backrest Vinyl or Cloth Seat
 - Deluxe Air Suspended Full Suspension Cloth Seat
 - Heated Deluxe Air Suspended Full Suspension Cloth Seat
- 3-point seat belt for Deluxe Seat
- Powered Tilt Operator Compartment
- High mount Exhaust
- SAUER-DANFOSS dual piston pump 111 ccm
- Various Light Kits
- Battery master switch, lockable
- Amber strobe light switch activated
- Self adjustable back up Alarm volume > 5dB(A) ambient
- Hydraulic Accumulator
- Lockable diesel fuel cap
- Lifting Eye Shackles
- Engine Block Heater 230V and 240V
- Traction Speed Limiter
- Automatic Engine Shutdown
- Hydraulic temperature protection
- Pressure compensated lowering
- Yale Vision Wireless Asset Management system
- Front and Rear Mud Flaps
- Lockable Battery Disconnect Switch
- Directional Control Lever

Other options available through Special Engineering. Contact Yale for details.

EF series

Models: GDP 160EF12

The EF series offers superior traction, gradeability, drawbar pull, travel / lift speeds and excellent manoeuvrability, ideal for tough out-door applications.

New Operator Cabin

The new Operator Cabin is designed for maximum operator comfort and productivity featuring a "cockpit-style" workplace with all truck information and controls at the operators' fingertips.

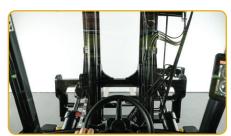

Unique lateral seat sliding further improves the view on the work task.

Excellent all-round visibility and operator protection is ensured by the armoured glass top window, curved front- and rear window and toughened glass doors.

High-capacity HVAC (heating, ventilation and air conditioning) system, an ergonomic adjustable control arm includes a wrist cushion and minilevers, or joystick option with all-day comfort from suspended seats.

Low noise levels enable operator to remain focussed during shifts.

Stage IV engines

Stage IV compliant diesel engines use Exhaust Gas Recirculation (EGR), a Diesel Oxygen Catalyst (DOC) and Selective Catalytic Reduction (SCR) technology to significantly reduce emission levels.

Cummins QSB 6.7L

The 6-cylinder engine delivers 125kW (168Hp) power and 732Nm of torque.

Transmissions

The automatic ZF 3WG161 transmission is fitted to all models with a heavy duty transmission oil pump to increase cooling oil flow to the clutches and torque converter.

A column-mounted lever or optional FDC pedal for direction changes give extremely smooth shifting with a forward-reverse lock-out function. Otimised shift points contribute to increased efficiency resulting in lower fuel consumption.

Power on Demand

Load-sensing hydraulics provide lifting power proportional to the load. Variable displacement pumps (VDP) ensure engine power is supplied only when required allowing more power for driving, increasing responsiveness and acceleration. Three pre-defined user modes can be selected allowing fine-tuning of the hydraulic controls.

Hvdraulics

Load-sensing hydraulics (LSH) deliver faster lift and auxiliary hydraulic speeds for optimum productivity, especially with attachments. Oil is filtered at three locations to maintain high cleanliness for reliability.

Protection Systems

The engine protection system monitors coolant and air intake temperature and oil pressure. The transmission system monitors pressure, temperature and forward / reverse lockout on direction changes. The hydraulic system monitors low oil temperature.

Cooling System

The Quad-Cooler radiator contains separate cooling cores for engine, transmission, hydraulics and charge air cooler designed to operate in a wide range of application temperatures.

Drive Axle

The drive axle has excellent sideways stability and long-term durability thanks to the fitment of strong end-reduction shafts and gears.

Steer Axle

The hydrostatic steer axle features a double-acting, single steering cylinder with adjustable end stops giving long lifespan and low maintenance. Loadsensing power steering ensures low-effort operation under all conditions

Chassis

A rugged unitised frame is designed for tough, demanding applications with excellent stability - the mast is directly

mounted to it, handling loads to high lift heights.

Masts and Carriages

Enhanced mast and carriage arrangement delivers excellent visibility for the operator of the forks and load. See pages 3 and 5 for further details on carriages.

Electrics

Trucks use a 24 Volt system with 70A alternator and CAN bus connection. The LCD displays diagnostics for engine, transmission and electrical systems.

Lights

Mast mounted work lights, rear cab-mounted work lights, front marker lights, LED direction indicators, stop, tail and reverse lights.

Serviceability

Unobstructed access to the engine and key components via the sideways-tilting cab and 'gull-wing' doors. Service check points, centralised PC access and CAN bus connections help to reduce fault identification time. Longer service intervals increas uptime and reduce servicing costs. LSH oil change is up to 6000 hours, transmission oil change interval is 2000 hours.

Stage IV engine - aditional features:

Auto Rev-Up:

Engine speed is automatically increased during lifting and tilting with the transmission is in neutral.

Drive Over Lift (DOL):

Priority is given to driving and fitting. Hydraulic performance is reduced while driving and performance is automatically increased when engine speed increases.

High performance Mode (HiP):

HiP mode maximises engine power and torque for hydraulic and drive functions.

Economy Mode (ECO-eLo):

ECO-eLo mode makes throttle reaction less aggressive, saving fuel, with reduced maximum engine speed.

Alternate idle mode:

Engine rpm is automatically reduced to stand-by mode if no functions are used for 30 seconds.
